**Ingrid Hardy – Founders Platinum ABO (2005) from the UK**

Ingrid is originally from South Africa and now lives in Bournemouth with her husband Justin and daughter Mia. Ingrid works with Justin in his optical practices.

When they saw the business, it offered great income and lifestyle options. It all seemed fabulous; however, what mostly influenced Ingrid was the potential of giving up being controlled by a boss, inflexible working hours, limited holiday and not enough pay.

Through determination, the support of her mentor and a system, she has managed to build the business to Founders Platinum level.

Now, many more options have opened to them, and each step forward takes them closer to their desire of being able to travel the world, and to have the choice of how to spend their time.
