**With special guest speakers**  
**Ron & Ann Gee-Pemberton – Emerald ABO's (1994) from the UK**

Ron and Ann were both college lecturers when they saw the Amway business, Ron taught Chemistry and Ann taught biology. Just prior to starting the business Ann had taken a 5 year career break to be at home with their 2 young daughters. This had a big impact on their finances and they were seriously looking for additional income. Within one year they had reached the Ruby level which earned an income equalling Ron's job income. After qualifying Emerald, Ron and Ann were able to give up their jobs to concentrate on building the Amway Business and spending more time with their family. They now live in a large farm complex in which their whole family can live. They both feel they have benefitted greatly from spending time with positive optimistic people in the Amway Business. They have travelled the world and spoken at seminars in the USA, Greece, Turkey and Romania. The opportunity to influence and inspire people has been one of the greatest rewards they have received from the business.
