Les and Mira first saw the business when they were hotel owners in the Australian Alps. Operating successful businesses, they were dreaming of more family time together, particularly with their daughter, Bianca.

Attendance at their first weekend seminar in Canberra convinced them that this business was the best option for people who wanted time, money and security at the same time. Les and Mira returned to Poland for the market opening and are based in Warsaw. They went Diamond in May 2007.

Mira, an MBA graduate and management consultant sees the vast differences between this limitless business and the limitations in the corporate world

Les, a sought after N21 speaker believes that living your life with CHOICE, is what you can call real success. Their business now spans many countries, offering them and their partner's personal freedom, travel, exceptional friendships, and above all peace of mind about the future.
